THE BANGOR DAILY WHIG & COURIER

IS PUBLISHED MORNING,

In Exchange Block, East End of Kenduskeag Bridge, at FIVE DOLLARS a year.

WHEELER & LYNDE, - - - - - Proprietors

THE BANGOR COURIER

IS PUBLISHED EVERY THURSDAY

In the Office of the Daily Whig and Courier, at One Dollar and Fifty Cents a year in advance, or Two Dollars a year if not paid in advance.

AGENCIES.

S. N. PETTENGILL & CO., 10 State-st., Boston, and 119 Nassau-st., New York, are authorized Agents for receiving Advertisements and Subscriptions for this paper.

S. R. NILES, Agent, Scollay's Building, Court street, Boston.

F. Y. COB & CO., Agents, Tribune Buildings, New York.

JOHN BURRILL, Agent, 36 Kilby street, Boston.

The Law Regulating Newspapers and Periodicals.

1. Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions.

2. If subscribers order the discontinuance of their papers, the publisher may continue to send them until all arrearages are paid, and subscribers are responsible for all the numbers sent.

3. If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their bills, and ordered their papers discontinued.

4. The Courts have decided that a refusal to take a newspaper or periodical from the Post Office without notifying the publisher, and the payment of all arrearages, is prima facie evidence of fraud.

5. Subscribers to newspapers or periodicals remaining late in any town, and having papers left at their residence or elsewhere, are liable to pay so long as the paper or periodical may be sent to the residence of the party at the time of subscription, unless notice is given of such removal to the publication office.

Flour, Wheat Meal, Cracked Wheat, Wheat Middlings, AND SHORTS.

THE SUBSCRIBER continues to receive into his Store, weekly, from his Mill (in the West, by Railroad), the above articles, fresh ground.

The middlings are good feed for horses and swine, and much cheaper than any thing in the market. ☞ Store No. 15 Broad Street.

J. OSIAH TOWLE.

Livery and Sale Stable.

A. G. HUNT,

Having purchased the entire Livery Establishment of Miller & Murch, situated on CENTRAL BRIDGE, Second door to Norumbega Market, where he is prepared to furnish the best of teams at the shortest notice, at prices to conform with the times. He also returns thanks to former customers, and solicits a share of their patronage. The riding and traveling public are invited to call.

☞ Horses bought and sold. Also, a few large Team Horses for sale, suitable for the woods.

California Mail Steamers via Panama, leave New York on the 5th and 20th of each month.

Steamers via Nicaragua, leave New York on the 6th and 24th of each month.

The Havana Steamers leave New York on the 2d, 7th, 12th, 17th, and 22d of each month, and Charleston, S. Carolina, 4th and 18th.

The New York steamers of the 2d and 17th are the only ones under strict contract with government to sail on the proposed days. Definite arrangements cannot be made for other dates, to avoid vexatious disappointments, &c.

The mail contract with the Charleston steamers is broken up for very cause.

The mails for California leave at the Sub-Post-Office at 2 P. M. on the 4th and 20th of every month, to be forwarded by the steamers leaving New York on the 5th and 20th.

The Overland Mail for California leaves St. Louis every Monday and Thursday. Letters designed for it should be marked "Overland via St. Louis."

The receipt of letters at the Bangor Post Office, by these steamers, may be expected the second day after their arrival in New York.

CARRIAGES!

Carriages!! Carriages!!

The subscriber hereby gives notice that he has been appointed agent for the sale of Sargent, Harlow, & Co's Top Carriages of all descriptions,

which he is prepared to deliver at his

Carriage Shop on Franklin Street,

Thereby affording to citizens of Bangor and vicinity, in want of such Carriages, an opportunity to purchase direct from the best manufactories in New England, at the manufacturer's prices.

Also that he still continues the

Carriage Making Business,

In its various branches, including

Repairing, Painting and Trimming,

In the best manner, and at the very lowest prices. From his experience, his facilities for doing business, and the character of his workmen, he flatters himself that in the produce for durable and substantial Carriages, his establishment will be second to none in the State.

Mr. Geo. S. Walker,

Well known to be one of the best Carriage Painters in New England, still has the charge of his painting department; offering a very rare inducement, to those who would have their work done in an elegant and durable manner, to leave their work at this establishment. *All work warranted to give entire satisfaction,* and all bills for work payable when the work is done.

THE TARBOX TRAGEDY AT WELLFLEET, Mass., announced by telegraph on Monday, is thus narrated in the papers:

Last night, between 12 and 1 o'clock, Mr Eben S. Ward, of South Wellfleet, was murdered by his son-in-law, Samuel Fish. The murderer has been captured and confesses the crime. The first intimation of the presence of any person around the house was at quarter past twelve, when two bricks were thrown through the window of the bedroom in which they were sleeping. Mr and Mrs Ward got up, lighted a lamp, and went into a back room, and he, being terribly frightened, dare not go out of doors to see who was there, and give an alarm. All was still for half an hour, when two more bricks were thrown into the kitchen window, where they were sitting. They then went into the front room, Mrs Ward leaning against the door, and Mr Ward walking the room. Mrs Ward, turning round, saw the muzzle of a gun pointed towards them through the kitchen window. She stepped aside, and at that instant the gun was fired, and Mr Ward fell, exclaiming, "Oh, my God!" One hundred and eight shot holes were counted on his right breast and arm, and two ribs were broken. Nothing was known of the murderer until daylight this morning, the women in the house being too frightened to go out and give an alarm. Fish is not of sound mind, and is at times crazy. He attempted to shoot himself after committing the murder, but the cap on the gun did not explode.

He appears to have committed the terrible deed, because his wife (Mr Ward's daughter) had gone home to her father's on account of her husband's violent fits of insanity.

WHO SOLD THE STRAMBOAT?—The democratic organs are circulating a boast, got up on the poor authority of the Washington Constitution, that the Paraguay Expedition, instead of costing millions, did not cost a cent beyond the amount *necessary* to purchase the extra vessels used in the expedition. Of the folly and corruption practised in this matter the Washington correspondent of the Philadelphia North American says:

"The parties benefitted were those who sold seven rotten old steamers to the government at absurd prices. One of them, which recently brought less than $4,500 in New Orleans, was sold for $44,000. Three hulks were known to be unseaworthy, were condemned, and utterly unfit for service, when they were purchased. Yet a contract was made for their hire, and a subsequent one of conditional purchase, for which an appropriation of $289,000 was carried through Congress, under the urgent pressure of the Navy Department. And in order that no slip might occur, the negotiation was closed before it was possible to hear of the safe arrival of any of the vessels at their destination. All the reports of the officers attached to these unfit vessels, as they are called, agree in representing them as worthless, and some of them have been condemned as unfit for Western waters."

WAR TIDES.—The London Times of the 15th says that the only part of the speeches delivered in Parliament, the night previous, from which the English people will withhold their concurrence, is the intimation given by Lord Derby that, if war is once let up, England, if her dominions remain in its focus, must pass through short, sharp stages, first into a state of armed neutrality, and thence into the condition of a belligerent Power.

A Vienna correspondent writes:

"I cannot say that an alliance has already been concluded between the two great German powers, but negotiations to that end are proceeding apace. It is whispered that 200,000 Prussian soldiers will soon be collected in the Rhenish provinces, and that Austria has offered to the Prince Regent of Prussia the unfurling of the Federal Army. A distinguished officer, a day or two since, told me that I had in one of my recent letters greatly underrated the force which Austria, Prussia, and Germany could, on an emergency, bring into the field. 'Austria,' said he, 'can keep 250,000 men on foot, Prussia 400,000, and the Confederation States about 200,000. If we do place the $250,000 men on the Rhenish frontier, depot and hospital, Louis Napoleon will still have to cope with a million of well-armed men, about fifteen proved to the first Emperor of the French that they could fight well in a good cause.'

This is a good time to go among your young trees and pick off all the worm nests, which appear like tents, hundreds of dried leaves sticking to the limbs; in these are eggs also to be hatched for next season's depredations, by carefully removing them now, much harm of web be averted, and your trees saved from the ravages of this worm nuisance.—Every worm nest should always be burned.

"DEAR, YOU KNOW, IS OF SOME IMPORTANCE, MAMA," said Miss Deadeye, in our last, "dress, you know, is of some importance, after all," and Miss Scudder, in that simple way in which sensible people generally acknowledge a secret leaning towards anything very mundane, "certainly, certainly, Ma'am," chimed in Miss Pinny. "I was saying to Miss General Wilcox, the other day, I don't see how we could tolerate the times of the field, without seeing the importance of looking pretty. I've got a Moss-rose-bud in my garden now, from one of the most that old Major Seaforth brought over from France, which is just the most beautiful thing you ever did see; and I was thinking, as I looked at it, that if women's dresses only grew on them as handsome and well-fitting as that, why, there wouldn't be any need of me; but, after all, why, we must think, if we want to look well. Now peach trees, I suppose, might bear just as good peaches without the pink blows, but then who would want 'em to? Miss Deacon Twitchel, when I was up there the other day, kept kind of foreignin' cause Cornelia Ann is getting a new pink silk made up, 'cause she said I was so sallow-looking she didn't seem right to call off our sitting-room; but I told her I wasn't a pinker than the apple blossoms, and what with robins and blue birds, and one thing or other, the Lord is always calling off our attention; and I think we ought to observe the Lord's works, and take a lesson from 'em."

Mrs Stowe's New Story.

JUDICIAL FAVORS.—A correspondent of a Philadelphia paper sends a communication, in reference to the escape of an alleged murderer, in that city. His remarks may possibly, at some other locality.

For the fun of the thing, let us suppose the alleged murderer caught. Well, what ok? Of course he will have a hearing before magistrate, bail business discussed, and awful hard swearing, pro and con, generally. Prisoner is committed to stand a trial. Day arrives. Quarter sessions crowded. Counsel for defend-

THE BANGOR TRIBUNE

Is published every morning, Sundays excepted, at the office, Exchange Street, opposite the Post Office, by the Tribune Publishing Company.

Terms, Six Dollars a year, payable in advance.

Advertisements inserted at the usual rates.

Subscribers will be supplied with the paper by the carrier, at Twenty Cents a week, payable to the carrier.

Single copies, Three Cents, for sale at the office, and by the carriers.

Country Subscribers, Six Dollars a year, payable in advance.

Country Clergymen, Three Dollars a year, payable in advance.

Country Newsdealers, Four Dollars a year, payable in advance.

Country Newspapers, Two Dollars a year, payable in advance.

Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions.

If subscribers order the discontinuance of their papers, the publisher may continue to send them until all arrearages are paid, and subscribers are responsible for all the numbers sent.

If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their bills, and ordered their papers discontinued.

The Courts have decided that a refusal to take a newspaper or periodical from the Post Office, without notifying the publisher, and the payment of all arrearages, is prima facie evidence of fraud.

Subscribers to newspapers or periodicals remaining late in any town, and having papers left at their residence or elsewhere, are liable to pay so long as the paper or periodical may be sent to the residence of the party at the time of subscription, unless notice is given of such removal to the publication office.

Bangor Daily Whig and Courier.

STATE OF MAINE.

In the year of our Lord one thousand eight hundred and fifty nine.

AN ACT to authorize the City of Bangor to aid in the construction of the Aroostook Railroad.

Be it enacted by the Senate and House of Representatives in Legislature assembled as follows:

SECTION 1. The City of Bangor is hereby authorized to loan its credit to the Aroostook Railroad Company in aid of the construction of their railroad, not exceeding, however, the sum of ten thousand dollars per mile upon their compliance with the following terms and conditions.

SECTION 2. If this bill shall be accepted as hereinafter provided, said corporation shall, within three years from its approval, produce evidence satisfactory to the Mayor and Aldermen of said city for the time being, that the sum of one hundred thousand dollars has been subscribed and paid in towards the Stock of said company, to be expended in the construction of their road and the purchase of the right of way; then such fact shall be certified by the Mayor and Aldermen to the City Treasurer, and he shall forthwith issue to the directors of said company, for the purpose of completing said road, the scrip of said city, payable to the holders thereof at the expiration of thirty years from the date thereof, at the rate of ten thousand dollars per mile, not to exceed the sum of five hundred thousand dollars, with coupons for interest attached, payable annually: Provided, however, that the whole amount of said scrip shall not exceed the sum of five hundred thousand dollars. And provided, further, that said scrip may be subdivided and issued in lieu thereof, for such sums as the directors may deem expedient. And one hundred thousand dollars of said scrip may be issued on the completion of ten miles of said road; and one hundred thousand dollars more on the completion of each additional ten miles from its point of departure towards Mattawamkeag Point, till the whole sum is exhausted; to be applied to the construction of its line between Mattawamkeag Point and its southern terminus.

SECTION 3. Concurrent with the delivery of said scrip, as aforesaid, the president and directors of said company, in their official capacity, shall execute and deliver to said City Treasurer, the bond of said company, in the penal sum of ten hundred thousand dollars, payable to said city, conditioned that said company will duly pay the interest on said scrip and the principal thereof, in all respects hold and save the city harmless on account of the issue of the same. And shall also execute and deliver to said Treasurer the scrip of said company, payable to the holders thereof at the same time and for the same amount as the scrip thus issued by said Treasurer to said company, with the like coupons attached, which scrip shall be held by said city, as collateral security for the fulfilment of the conditions of said bond, and in default of any one of said conditions, said city may, from time to time sell said scrip or any portion thereof at public auction or auctions, in the cities of Bangor, Portland, Boston, or New York, after sixty days notice in writing to the President or one of the Directors or three of the stockholders of said company, naming therein the time and place of sale; and the net proceeds thereof shall be entered on said bond.

SECTION 4. The President and Directors of said Company are hereby authorized, and it shall be their duty in their official capacity, upon the receipt of said scrip from said city, and the delivery of their bond to said city, to secure the payment of the same, to execute and deliver to said city a mortgage of said railroad, and of all the property of said company, real and personal, which they then have or may subsequently acquire, together with their franchise without pecuniary incumbrance, which said mortgage shall be by the said President in his official capacity, and shall be executed according to the law of this State, and shall be in due and legal form, and shall contain apt and sufficient words to secure to said city the fulfilment of all the conditions in said bond contained; and said mortgage so executed and delivered and recorded in the Registry of Deeds for the County of Penobscot, shall be all intents and purposes, and the same is hereby declared to be, a full and complete transfer of said railroad, of all the property of said company, real and personal, then or subsequently to be acquired, and of said franchise, subject only to the conditions therein contained, any law to the contrary notwithstanding. And all the proceedings in the organization of said company and choice of directors shall be deemed valid and regular.

SECTION 5. For the purpose of foreclosing said mortgage, it shall be sufficient for said Mayor and Aldermen to give notice according to the mode prescribed in the fifth section of the ninteenth chapter of the Revised Statutes, which notice may be published in a newspaper printed in Bangor, and record thereof may be made within thirty days after the date of the last publication, in the Registry of Deeds for the county of Penobscot; which publication and record shall be sufficient for the purpose of such foreclosure. Upon the expiration of three years from and after such publication, if the conditions of said mortgage shall not within that time have been performed, the foreclosure shall be complete and shall make the title of the railroad and to all the property and franchise aforesaid absolute in said city.

SECTION 6. If the directors of this company shall at any time neglect or omit to pay the interest which may become due upon any portion of the scrip issued and delivered under the provisions of this act, or to pay the principal as it shall become due, or to comply with any of the conditions of said bond, the city of Bangor may take actual possession, in the manner hereinbefore provided, of the railroad, of all the property, real and personal, of the company, and of the franchise thereof, and may hold the same and apply the income thereof to make up and supply such deficiencies, and all further deficiencies that may occur, while the same are so held, until such deficiencies shall be fully made up and discharged. A written notice, signed by the Mayor and Aldermen, and served upon the President or Treasurer, or any Director of the company, or if there are none such, upon any stockholder of the company, stating that the city thereby takes actual possession of the railroad and of the property and franchise of the company, shall be a sufficient actual possession thereof, and shall be a legal transfer of all the same, for the purposes aforesaid, to the city, and shall enable the city to hold the same against any other transfer thereof and against any other claim thereon, until such purposes have been fully accomplished. But such possession shall not be considered as an entry for foreclosure under any mortgage herein before provided. Nor shall the rights of the city or of the company under any mortgage in any manner be affected thereby.

SECTION 7. All monies received by or for the railroad company, after notice as aforesaid, from any source whatever, or by whomsoever the same may be received, shall belong to and be held for the benefit of the city, in the manner and for the purposes herein provided, and shall, after notice given to persons receiving the same, respectively by them paid to the City Treasurer, which payment shall be an official discharge from all claims of the company thereof; but if any person without such notice, shall make payment of moneys so received, to the Treasurer of the company, such payment shall be a discharge of all claims of the city therefor. All monies received by the Treasurer of the company after such notice or in his hands at the time such notice may be given, shall be by him paid to the City Treasurer, after deducting the amount expended, or actually due for the running expenses of the road, for the salaries of the officers of the company and for repairs necessary for conducting the ordinary operations of the road. Such payments to the City Treasurer shall be made at the end of every calendar month and shall be by him applied to the payment of all the interest and principal due as aforesaid. And any person who shall pay or apply any monies received as aforesaid, in any manner contrary to the foregoing provisions, shall be liable therefor, and the same may be recovered in an action for money had and received in the name of the City Treasurer, whose duty it shall be to sue for the same, to be by him held and applied as herein required.

SECTION 8. For the purpose of effecting the objects prescribed in the two preceding sections, the Mayor and Aldermen may cause a suit in equity to be instituted in the name of the city of Bangor, in the Supreme Judicial Court in the county of Penobscot, against the railroad company, its directors or any other person as may be necessary, for the purpose of discovery, injunction, account or other relief under the provisions of this act. And any Judge of the Court may issue a writ of injunction or any other suitable process in any such bill, in the vacation or in term time, with or without notice, and the Court shall have jurisdiction of the subject matter of such bill, and shall have such proceedings and make such orders and decrees as may be within the powers and according to the course of proceedings of courts of equity, as the necessities of the case may require.

SECTION 9. If the railroad company shall, after notice of possession as aforesaid, neglect to choose directors thereof, or any other necessary officers, or if none such shall be found, the Mayor and Aldermen of the city shall appoint a board of directors, consisting of not less than seven persons, or any other necessary officers, and the persons so appointed shall have all the power and authority of officers chosen or appointed under the provisions of the act establishing said company; and upon their acceptance, such officers shall be subject to all the duties and liabilities thereof.

SECTION 10. The city shall appoint one of the directors of said railroad company from among the stockholders, who shall be chosen annually by the City Council in joint ballot, before the annual meeting of said company for the choice of officers, who shall have the same authority in transacting the business of said company, and who shall be entitled to the compensation from the company as any other director. But the right to assume such director shall cease when the loan contemplated is extinguished.

SECTION 11. As an additional, or accumulative protection for said city, all bills issued by said city may be assumed or incurred under or by virtue of any of the provisions of this act, shall at the time, and by force the act, and for the security and payment of the same, create in favor of said city a lien on said railroad, its franchise and all of its appendages, and all real and personal property of said railroad corporation, which lien shall have the preference, and be prior to all other liens and incumbrances whatever, and shall be enforced, and the rights and interests of said city protected, when necessary, by suitable and proper judgments, injunctions or decrees of said Supreme Judicial Court, on a bill or bills in equity, which power is hereby specially conferred on said Court.

SECTION 12. This act shall not take effect until it shall be accepted, by said company, and by a vote of the inhabitants of said city, voting in ward meetings, duly called, according to law, within two years after the approval of this act by the Governor; and at least two thirds of the votes cast at such ward meetings shall be necessary for the acceptance of the act. The return of such ward meetings shall be made to the Aldermen of said city, and if so found and declared, and said City Clerk shall make a record thereof, and if the act shall be accepted, as aforesaid, then after such acceptance and record thereof, all the parts of the act shall take effect and be in full force thereafter.

SECTION 13. This act shall not take effect until it also has been accepted by a two thirds vote of such branch of the city government of the City of Bangor.

SECTION 14. The provision of this act shall be in force from and after its approval by the Governor.

IN THE HOUSE OF REPRESENTATIVES,
April 4, 1859.

This bill having had three several readings passed to be enacted.

WM. T. JOHNSON, *Speaker.*

IN THE SENATE,
April 5, 1859.

This bill having had three several readings passed to be enacted.

C. W. GODDARD, *President.*

April 4, 1859.

Approved.

LOT M. MORRILL.

OFFICE OF SECRETARY OF STATE,
AUGUSTA, April 27, 1859.

I hereby certify that the foregoing is a true copy of the original deposited in this office.

LEWIS J. MOOR,
Dep. Sec'y of State.

Our Texas exchanges are talking of dishes of strawberries and cream and corn waving

ant on hand and eager for the fray. Jury called. 'Formed an opinion?' 'Yes.' — 'Stand aside.' Another and another. Same question same answer, till, after a long time, twelve intelligent, &c., are procured, when, all of a sudden, the discovery is made that an important witness is absent. 'Can't go on, your Honor. Peter Jones is here, will swear that John Snooks, who knows everything, and more too can be found, expect to prove by him insanity in the family of the prisoner for a thousand years, will swear that the prisoner is as harmless as a kitten, was hit once, when a baby, on the shins, with a doughnut, and been soft headed ever since.' The trial is put off, comes on next six months, crazy dodge no go, convicted, great shame, innocent as a lamb, move for a new trial, argument heard, refused, sentenced, Governor pardons. Who wouldn't "take a day's shooting?"

STATE APPOINTMENTS.—Our telegraphic dispatch from Augusta this morning announces the nomination by the Governor and Council, of three Judges of the Supreme Court (to fill places becoming vacant next week by the expiration of terms) a Reporter of Judicial Decisions, in place of Mr Ludden deceased—and an Agent of the Penobscot Indians, in place of Mr Spaies, resigned. The new nominations will be found in the telegraphic column.

We have only time to say that the nomination of Ex Governor Kent to a place upon the Supreme Bench is one which will undoubtedly be received with the highest gratification by the people—as it is one which will be a credit to the State both in the consideration of its own citizens and in the view of intelligent men throughout the Union. Mr. Kent has a national reputation, well earned and justly enjoyed, not only as a prominent public man but as a lawyer of great ability and grasp of mind, and of rich and ripe experience, as a counsellor, an advocate and a jurist.

We copy with pleasure the following spring and warm hearted article from one of the ablest and most influential papers in the Western part of the State—the *Brunswick Telegraph*. It is from the pen of the editor, Mr Hoyt, and contains a candor of argument and a clearness of perception as to the true interests and wants of the State, which must go far to convert any opponents of the Railroad Bill who may peruse it. The section where the *Telegraph* and the *Bath Times* take hold thus earnestly in the work, it will be the best encouragement to those not only for the success of the bill appropriating the lands to the agricultural purse, but for the rapid advancement of the public domain, and the consequent development of the rich resources which are sufficient to constitute Maine one of the most populous and wealthy states of this Union.

From the Brunswick Telegraph.

Aroostook Railroad.

On the second Monday of June the people of this State will be called upon to vote for or against An act to aid the Aroostook Railroad Company, and increase the value and promote the speedy and settlement of the public lands—for such is the title of the Act. We do not publish it in our columns neither shall we furnish an abstract of its provisions for we hope to distribute the Laws in an extra form, in his week's paper, and then all will have an opportunity to read the Act in full. We hope every voter will do so and thus be enabled to act understandingly when he comes to vote in June for the acceptance or rejection of the measure.

It will be recollected that the Bill presented to the House of Representatives by Mr Rodgers of Bangor in behalf of the Railroad Committee, and the Bill as amended on motion of Mr Smart of Camden, was voted down, and the Bill upon which the people are to vote, the course of a few weeks is a sort of a compromise of conflicting interests. It was carried in both Houses at the Legislature with wonderful unanimity by the combined action on the part of the members towards some scheme to aid the construction of an Aroostook Railroad.

And first and foremost let us say distinctly, we go in heart and soul for an Aroostook Railroad—and insist it is not only the part of wisdom in the State but it is the true state policy *very extension depends upon a full development of its resources*—agricultural in chemical, and mining wealth. We are not a little stronger in our advocacy of such a Railroad now—or of a receiving State aid—than we were *a year ago*, long ere we went on a free ride to the Aroostook region. We appeal to the columns of the Telegraph for proof. Long before we knew such an excursion was to be got up, we advocated the building of a road to that country—and the granting of the aid of the State in its behalf. Our visit to the Aroostook only served to extend our knowledge of the country to *deepen* but not to form our convictions of the importance of opening it up to settlement. This much we give as a matter of personal explanation.

We propose now to deal only in generalities, because we merely desire to direct public attention to the matter, and further, because we have not at hand the facts that we desire to lay before our readers. Perhaps too, after they have read the Act in detail they will better appreciate some statistics bearing upon the question.

And why should a Railroad be built? Because, unless we build one within our own borders, from Bangor or some place in Eastern city, the Provinces of New Brunswick through the St John river, and the St Andrews Railway, will secure nearly if not the entire traffic of the Aroostook region. Again, we should build a Railroad, because the Aroostook territory is now isolated and shut out from the rest of the world, and will not for many years fill up and be cultivated, as it ought to be, unless an avenue is opened to a market. Surely it will not be said that we should permit our Provincial neighbors to steal our fruit. There is no treason in the world why we should do any thing to enrich them! Charity begins at home, and hasty pudding never works more wisely, scrowdylian'l over plentifully, than when she looks after her own household. What we want, to do it is *to build up Maine*, and we certainly never can do it, if we allow any business which legitimately belongs to us to go over the borders. We need not enlarge up in this other point, that the Aroostook country will not be settled until an avenue to a market is opened. This is too obvious to require a moments consideration.

But why should the lands and the construction of such a Railroad? The act upon which we shall soon be called to decide, proposes to devote the proceeds of the sales of the public lands to build a Railroad. The public lands, as now disposed of at 50 cents per acre, payable in road making, are not only worthless to the State, but the expense of their management is a burden upon the Treasury, and for which it receives no return. Besides the lands are now so *scattered* out as to benefit nobody except a class of greedy speculators. The land is a mine of wealth richer far than the golden streams, or quartz rocks of California, but it must be worked to yield its store. The State will be millions richer when it shall have parted with its last acre. Of what possible advantage can it be to own pretty much all creation, unless you can turn at least a minority of it to some useful purpose. If the State aids the construction of an Aroostook Railroad, it will tend to arrest, to some degree, the tide of emigration which is flowing from our borders and the best blood of our State to settle homes in the far west, and on the shores of the Pacific. Every strong, sinewy arm backed by a firm purpose, nervous energy, and an unconquerable will, that leaves our borders, robs us of wealth that cannot be estimated,—and wealth too which belongs at home, and should be retained here.

If the State aids the construction of an Aroostook Railroad, it will more specially be completed—the country settled, and a greatly enhanced value given to all the property in that region. The taxable values will be increased 25—perhaps 50 or 100 fold. Now, those persons who are so frightened at the modest idea of taxation, had better look a little into the matter, and see if a little risk run, will not ensure more than an adequate return. If we can in Maine arrest the outflowing emigration, and increase greatly the value of the Aroostook region, we shall prize with us our coffers almost unto overflowing, and the State *can and should do a great deal* to secure these objects.

It is said that the Railroad will not pay.—Granted. But if not a paying concern of itself, it will make other things pay—big agriculture and manufactories, wherever the Railroad offers facilities for transportation will make the raising of boys and girls a paying concern, for it will offer inducements for them to stay at home and go into the same business and thus fill up the acres and acres of land that now lie idle and unused. It will make the eastern portion of the State a wealthy section of the country, *and thus benefit the whole State*—for what benefits a section and adds a larger to the wealth and population of Bangor, benefits in a greater or less degree the town of Brunswick. It is the argument of a fool—just as much as suppose we do not help Bangor, of which we are a citizen? In the name of heaven of what use is the whole property of Portland to the town of Portland? The mania which fear of the Aroostook Railroad, Pisciataquis, will be impoverished, but better study a little more close your business and reflect. The counties of our State are like marriage people in a state of harmony—one cannot get rich without the other's assisting in filling her share of the added store! There are people who cannot look beyond their noses and perhaps if they could, they would so awfully they would discover nothing worth looking at. At a future time we shall recur to this subject again.

THE LOAN BILL.—The bill authorizing the City of Bangor to aid in the construction of the ship road to Matinicus, Pom., will be found published in this paper. Our people should read and understand the bill, that they may be prepared to act intelligently upon it whenever it may be presented for the popular vote. It will be seen that the bill which it provides as security for the city is ample for that purpose. The bill may be submitted to the people any time within two years of its passage.

ERRATA.—In the article of Monday in relation to Mr Bailey, and the Free South, Mr Bailey is made to say—"Our *Country* is for Freedom now, instead of "Our *County*, &c. It is due to Mr Bailey that all County votes the anti-slavery ticket—but many more must work, as he does, before it can be said our *Country* is entirely for freedom.

The people of Massachusetts are to vote on Monday next, May 9, upon the proposition to amend the State Constitution so that aliens shall not be allowed to vote until two years after naturalization. The Boston Journal advocates the amendment, and it is not will be adopted. A large portion of the Republicans are opposed to it, and are making strenuous efforts for its defeat—which may be accomplished if the democratic opposition does not turn out to be mostly ex's.

RAILROAD COMPANIES LIABLE FOR BAGGAGE.—The Wilmington and Manchester Railroad Company have a rule that denies their liability for the loss of baggage to an amount over $100. A passenger recently sued them in the Court at Darlington, S. C., for $500, which he proved to be the value of his trunks and contents, and recovered that sum. The Judge instructed the jury that a railroad company could no limit its own liabilities.

Prof. N. C. Morse of Louisville recently took as payment for a debt of long standing fifty acres of land in the western part of Tennessee, at the rate of $50 per acre. Prof. Morse made a visit to his new purchase in June, and upon examination of the soil found that it contained immense quantities of lead ore. He has been offered $1000 per acre for the land, but he will erect furnaces and get out the ore himself.

THE MICHIGAN ELECTION.—The Detroit Daily Advertiser publishes a table nearly complete, of the returns of the recent election in Michigan for Chief Justice, showing a Republican majority of over 11,000. The counties yet to be heard from will probably increase the majority to twelve thousand.

The death of Billy Bowlegs, the famous Seminole Chief, was reported at Fort Smith, Arkansas, on the 21st of March. Billy has a great many lives, and it isn't safe to give him up yet.

Since the first of January, 2,000 are missing from the mails at Staunton, Va.

LOCAL AND MAINE NEWS.

NEW STYLE TYPE
FOR CARD PRINTING

We have received several New Specimens of Card Type, which we wish to exhibit to those desirous of having Cards Printed in the most Fashionable and Latest Styles.

The alarm of fire yesterday forenoon was caused by the burning out of a chimney in the house of Stanford Chase on Centre Street. Fire was communicated to the wood-work, but was extinguished before the engines arrived.

ENCOURAGE YOUR OWN.—We call attention to the advertisement of Capt. Thomas Bickford in this paper. And while upon the subject of fish we would say that our regular dealers in fish, lobsters, &c., obtain the nicest of those articles by the most speedy conveyances from Portland and from the waters of our own Bay. To support the credit of their establishments they are compelled to keep none but fresh and good articles, and customers may therefore rely with greater confidence upon them than upon casual dealers who have not regular establishments to be affected in reputation. We say therefore encourage our own regular dealers, who pay their portion of the taxes and whose well regulated stalls and places of business should be maintained for the credit of the city.

POLICE COURT.—Yesterday afternoon, Louisa Dudley and Martha Ann Johnson were fined $10 each, on each of three complaints for shoplifting, and one half the costs each, amounting to $24,54. They appealed.

FIRST OF THE SEASON.—In raising early cucumbers, Mr. Adam Sekenger, at his green house on York street is ahead of all competition. We yesterday luxuriated on nice, fresh cucumbers from his hot bed which were, we believe, the first of the season. Sekenger intends to maintain a position in the front rank in his line.

☞ We have the second number of the *Gardiner Daily Pearl*, and we are pleased to see that the publishers have received sufficient encouragement to warrant a hope of its permanent establishment.

☞ The grass is now starting finely in the fields, our early gardeners are preparing their ground for the seed, and the farmers are putting in the plough in the dry spots. No time has yet been lost, however in the way of gardening. As a general thing people of enterprise get their seeds in too early than too late.

A LIQUOR SELLER HELD RESPONSIBLE FOR THE DAMAGE DONE BY HIS LIQUOR.—In the Supreme Court at Machias last week a verdict was rendered against Thomas Gilpatrick, Jr., in the sum of $130 25 damages, for the burning of a barn belonging to Geo. M. Gilbraith in the town of Weston, Aroostook county, in March, 1857—the burning having been caused by two men named Byron and Harvey, while in a state of intoxication produced by liquors sold them by defendant. Exceptions were taken in the case. The action was brought and maintained under a provision of the liquor law of 1856, which was in force at the time of the burning.

The Portlanders are moving for a supply of fresh water from Sebago Lake.

The arguments for and against the motion for a new trial in the case of Capt. Holmes were concluded in the U. S. Court at Portland on Tuesday. The case was then taken under advisement by the Court.

PORTLAND KEROSENE OIL COMPANY.—This Company organized under their charter from the Legislature, on the 28d of March last by the choice of

St John Smith, John B. Brown, Francis Macdonald, S. R. Philbrick of Portland, Samuel Downer of Boston, for *Directors*.

Subsequently S. J. Smith was chosen *President*.

S. R. R. Philbrick, *Treasurer and Sales Agent*.

E. Banks, *Secretary*.

F. Macdonald, *General Agent*.

Wm. Atwood, *Chemist and Superintendent of the Works*.

The Company are erecting a factory at Cape Elizabeth, near the westerly end of Vaughan's bridge, and expect to be in operation about the first of August.

They have also taken store 194 Fore street (near the head of Central Wharf) which is now undergoing some alterations and repairs, where they will shortly be prepared to offer to the trade the best of Kerosene Oil.

The capital stock of the company is, we learn, $100,000. Six brick buildings will be required for the manufacturing operations, one of which is already erected and two more are rapidly going up, and it is expected that constant employment will be given to about sixty men. The coal to be used is that of the Albert Mine, N. B., of which some twenty cargoes will be required annually.—*Argus*.

FOR THE SEMINARY CHAPEL.—The Bath Times of Tuesday says:

We learn that an association of young ladies styling themselves the Corbanatic Society will hold a Levee, with a sale of useful and fancy articles at the Columbian Hall tomorrow evening. The object is to aid in completing the new Chapel of the Bangor Theological Seminary—an enterprise to which many of the ladies of our State, and especially those of Bangor have been deeply and actively interested. The Chapel is a beautiful and commodious brick structure, and under the impulse of a generous enthusiasm among its fair friends, is rapidly drawing near to completion. The institution, of which it is at once an ornament and a need, contributes largely to the intellectual and moral condition of our whole State, and we hope that our citizens will respond liberally to the call.

A plan has been offered to the people of Perry who own land bordering on Little River stream, to stock the river with salmon, shad and alewives on such terms as will make all people, owning land on the stream, directly interested and all the town also interested in having an article of cheap food near their homes. The plan proposed will not disturb the manufacturing interest on the river, it will only require the waste water. Should the people agree on the plan proposed to them, the fish are to be planted this spring.—*Machias Republican*.

The weather for some days past has been warm and beautiful. Farmers are busily engaged in getting their grain into the ground.—*Houlton Clarion*.

DEATH OF AN OLD NAVAL OFFICER.—The Portland Argus announces the death in that city of Commander J. S. Paine of the U. S. Navy. He entered the service in 1813 and with the exception of some few intervals, occasioned by illness, continued in actual service for the next succeeding 40 years.

During the period of his service he was on the West India station, in pursuit of pirates in the years 1824 and 1825. He served for three or four years on the Mediterranean station, and afterwards sailed in the Erie, as first Lieutenant under Capt. Jan Ryck, in 34 and '35, on the American coast to render aid to vessels in distress. In 1844 he was ordered to the command of the brig Perry, then in Canton. He afterwards commanded the sloop of war Cyane on the West India station. In 1853 his health had become so impaired by the service and by the fevers contracted while in the service upon the West India station and upon the coast of Africa that he was prevented being called upon for active service, and he was placed upon the retired list. Since that time he has resided in Portland.

The Band will commence their series of serenades this evening, in front of the Hatch House.

DROWNED.—Mr Jesse Norcross has received a telegraphic despatch announcing the death by drowning in the Merrimac river of Silas McPhetres, of Venice. Mr McPhetres was in the employ of Messrs Norcross, Sanders & Co., by whom he was much respected. His age was about 45, and he leaves a family at Venice.

FIRE.—When the cars were leaving Kendall's Mills last evening they passed a house a short distance from the village, the roof of which was all in flames. What was some singular, not a person was near it although there were other houses in the vicinity.

☞ Mr John Allen lives on a farm on the north side of Aroostook river two miles from Presque Isle. We saw his wheat field last fall and saw the grain in the sheaves, as he was hauling it into his barn. In a statement in the Pioneer he says he had 49 acres on which he sowed 49 bushels. Commenced sowing the 6th of May, closed 2d of June. On 18 acres of the earliest sowed he harvested 625 bushels, first quality wheat being 224 bushels to the acre weighing 60 lbs to the bushel. Ten acres of the late sown rusted, and was affected by the early frost, and yielded but 80 bushels in all. The other 21 acres harvested 485 bushels good grain, average 23 bushels per acre, making a total yield of 1068 bushels, which he says was not an average of his crops for the last 19 years.—*Bath Times*.

There is a young man at Winter Harbor, Gouldsboro bearing the somewhat lengthy name of Francis Edward Fortescue Warren Warrington Montgomery Lord Curlo Carey Bloomfield Norwood!

Who says there's *nothing in a name*.

MASONIC.—At the annual meeting of the Grand Royal Arch Chapter of Masons, the following officers were chosen for the ensuing year:

Moses Dodge, Portland, G. H. P.
Edward P. Burnham, Saco, D. G. H. P.
John J. Bell, Carmel, G. K.
O. J. Fernald, Thomaston, G. S.
Oliver Gerrish, Portland, G. Treasurer.
Ira Berry, Portland, G. Secretary.
Rev. J. L. Sanborn, E. Machias, G. Chaplain.
" C. Cummings, Portland, "
" Cyrus Pearl Baldwin, "
" L. B. Averill, Dover, "
Wm. P. Preble, Portland, G. Sword.
F. J. Murray, Saco, G. P. S.
G. F. Sargent, Bangor, G. R. A. C.
Joseph Covel Jay, G. Master V.
Joseph Miller, Waldoboro, G. Master V.
Silas Alden, Bangor, G. Master V.
R. W. Kennard, Portland, G. Steward.
Hiram Chase, Belfast, "
D. C. Palmer, Gardiner, "
Wm. Burton, Gorham, "
John Dana, Portland, G. Sentinel.

At the annual meeting of the Grand Lodge of Maine, Tuesday, May 3d, the following were chosen officers for the ensuing year:

Hiram Chase, Belfast, Grand Master.
Joseph H. Drummond, Waterville, Deputy Grand Master.
Gustavus F. Sargent, Bangor, Senior Warden.
Oliver Gerrish, Portland, Junior Warden.
Moses Dodge, " Grand Treasurer.
Ira Berry, " Grand Secretary.

"What a strain that is," said Mrs. Partington, as she heard an aria from Lucia sung in the highest style by a young lady where she was visiting. "Yes," was the reply, "it is operatic." "Upper attic, is it?" said she. "I should think it was high enough to be on the top of the house." Mrs. Partington does not believe that screaming constitutes melody.

The Hallowell Gazette has a Minnesota correspondent who writes as follows:

"This is a beautiful country, but man and the devil have made dreadful work! There is also very great scarcity of money!!!"

Rev. D. P. Livermore, Editor of the Chicago New Covenant says of Brown's Bronchial Troches: "We have frequently had occasion to test the efficacy of Brown's Bronchial Troches, and have invariably found them to answer the purpose for which they are recommended. Through our influence, others have tried them, and always with the most beneficial results, and so from our personal experience and observation we know them to be a superior remedy for colds, coughs, and bronchial complaints. No family should be without them, and every public speaker will find them absolutely invaluable. The two Austin Bercher and E. H. Chapin, bear testimony to their excellency, as our readers can see by getting a box of the Lozenges.

SPECIAL NOTICES.

DOCTOR A. A. MANN has been here for a few days administering to the sick and afflicted. There are many now in the city who are unable to come to him professionally. The Doctor says he shall return in a few days. This notice will be given on his arrival. n 5 3t

RISING VIRTUE LODGE, No. 10 meets THIS (Thursday) EVENING. Lodge opens at 7 o'clock. A full attendance of the brethren is requested. Per order. may5

Card.

The Officers and Members of Amory Engine Company No. 4 take this method of returning their sincere thanks to those Young Ladies, who so kindly assisted us in our preparations on the occasion of our supper. May they never have cause to change their smiles which they wore on the occasion, to mournful looks, but to pass through this vale of tears, without a cloud of sadness to cast their happiness.

The services they rendered, have made the Amory, their sweetheart, dearer, and although we may never repeat, to cancel the debt, we can never think of them with utmost respect and be the first on hand when, if ever, they are in danger from the fiery element, and call on our assistance.

"ALL HANDS TO THE RESCUE."

Per Order, CHAS. M. HAND, Clerk.

Notice to Contractors.

COUNTY COMMISSIONERS OFFICE, PENOBSCOT COUNTY, April Term, A. D. 1859.

SEALED Proposals will be received for the erection of an addition to the Court House agreeably to a plan and specifications which may be seen at the County Treasurer's Office. Said proposals to be filed in said Treasurer's Office on or before the 5th day of June next at ten o'clock A. M. Separate proposals are invited for the Mason and Carpenter work, and materials for same.

The Commissioners reserve the right to reject all proposals, which they deem not for the interest of the County. The persons to whom any contracts may be awarded will be required to give satisfactory bounds for the faithful performance of the contract. Said bond to be filed in said Treasurer's office within five days after notice of the acceptance of the bid. Said contract to be completed by the first day of November next.

GORHAM DAVIS, JOHN S. PATTEN, JACOB L. BARKER, County Commissioners of Penobscot County.

Bangor, May 4, 1859. 4tw (Jeff., Dem., and State Paper 3w)

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

[Special Despatch to the Bangor Daily Whig & Courier]

AUGUSTA, May 4

To day Governor Morrill made the following nominations

For Judges

R D Rice of Augusta
John Appleton of Bangor
Edward Kent of Bangor

For Reporter of Decisions

Wales Hubbard of Wiscasset

For Indian Agent

S W Hook na of Oldtown

WASHINGTON, 4th

Nothing is yet known as to the bids for the Letter Mail service nor will there be any communication on the subject by the post office department until the decision is made

The Postmaster General, who left for N Y yesterday, is expected to return Friday

All commissions of special agents of the post office department, issued prior to March 4th last and not signed by the present Postmaster General, have been revoked and their return to the department is requested.

W McAfee of Wisconsin, who has just been appointed Register of Land Office at Superior, has been directed to proceed thither without delay, as sale of 100 000 acres of public lands will take place on that district on the 6th and 20th of June

The government has not yet taken definite action in the troubles among the federal officers in Utah, but will wait for further information from that territory, especially as to the course of Judge Cardinbough The indications are that Gov Cumming will be sustained by the administration, his conduct being regarded as wise and conciliatory Such instructions will shortly be forwarded to Utah as will prevent further difficulties among the federal officers From all that can be ascertained no trouble is apprehended from the Mormons

Witnesses from Tennessee summoned by the United States have appeared before the Grand Jury of this District and it is said that a true bill has been found against certain government agents for fraud vouchers in the purchase of mules for the army It is reported that the delay in awarding the California mail contracts is owing to differences in the Nicaragua Canal Company

The New Orleans Picayune of Friday last, on information from Vera Cruz says, McLane the Mexican last steamer left about abandoned the enterprise of going up to the table lands for the present and this both because of the distracted state of the country and the desire to be recognized by government with which he is in official communication He designed, therefore, to go on board one of our ships of war at Sacrificios, probably the Savannah, till her relief by the Saratoga He proposed, in what purpose is not stated, to put himself in communication with the leaders of the opposite party for the purpose of protecting the lives and property of American citizens and in the cause of humanity during this unnatural war, if it can aid softening down some of its more horrible features

The European News via Halifax.

NEW YORK, May 4

The Associated Press think it due to the public to state that the Nova Scotia Telegraph Company have, regardless of the wishes of a large majority of the leading presses of the country and the owners of the telegraph lines west of Nova Scotia, put an end to foreign news arrangement which have existed during the past ten years and it is understood that the managers of the Nova Scotia line have made a secret and exclusive arrangement with a private party by which there is reason to believe they will attempt to use the European news for speculative purposes For this reason therefore the public should stand upon their guard As soon as the Niagara's news comes to hand it will be made public upon the bulletin board, and until then the commercial public must be at the mercy of the Nova Scotia speculators

SACKVILLE, N B, 4th

We are reliable information from Halifax that there as yet no signs of the R M S Niagara, now in her 12th day from Liverpool and fully due Weather there is fine with light south easterly winds

NEW YORK, 4th

A despatch from Pawlings Dutchess Co, states that to day says a large fire is raging in that town Several stores and dwelling houses in the village of E J Hurd and J W Stork, are already burned and others are in danger

Joseph Long Price ex congressman member and an ex member of Congress, died in this city to day

ALTOONA PA, 4th,

The Central Committee of the State Rights Democracy, is in session here John W Forney Chairman for a full and free interchange of sentiment There is much enthusiasm and determination to press forward the movement

They have resolved that it is inexpedient to nominate a State ticket They proclaim unalterable opposition to the doctrines of Congressional interference as advocated by the Republicans for the protection of slavery in the Territories as advocated by the administration and express the protection of Slavery They recommend that the friends of popular sovereignty vote for no candidates at the ensuing election who refuse to stand clearly upon the doctrine which recognizes the principle that the people of the territories shall form and regulate their own domestic institutions in their own way, and recommend to the State right democracy to demand, at all times the adoption of the principles promulgated by the Harrisburg Convention, which are enumerated in the Cincinnati platform and Mr Buchanan's letter of acceptance

LOUISVILLE May 4

At the Medical Convention to-day four essays were sent in to compete for the annual prize which were read and all rejected Dr J of Augusta Ga, read a paper on the chemistry of the fluids and secretions of the body in cases of malevolent diseases — It was subsequently proposed to refer this paper to the Prize Committee for the annual but Dr Jones objected

All the proceedings thus far have been listened exceedingly interesting in a scientific point of view

PHILADELPHIA, May 4

Triple ticket was elected yesterday by an average majority of 2500 votes The same party have a majority in both branches of the City Council

RICHMOND 4th.

A disastrous fire occurred this morning on Main st between Sixth and Eighth sts Several large shops and a planing mill, etc, with their contents were destroyed

NORFOLK 4th

The U S steamer Water Witch arrived here to day

The French frigate Gefleon Capt Dounay, has arrived here, 21 days from Vera Cruz. The passage was very stormy, and she will remain here eight or ten days and then proceed on a cruise. All on board are well

The launch of the steamer Richmond has been postponed

TORONTO, C W.

The government last night were sustained by the Legislature the supplies being finally passed Parliament was prorogued at 4 P. M to day

Mr William Smith O Brien arrived here last night and was met at the steamer by a large number of people who with a band of music escorted him to the Rossin House To day addresses were presented by the St Patrick Association and other bodies.

ZANESVILLE, O May 4

Jackson, the fugitive slave, was this morning delivered to his master to be taken back to Virginia A large crowd followed the parties to the railroad depot but there was no attempted rescue

HARTFORD, May 4

Oliver H Perry, Republican was to day elected Speaker by 117 out of 226 votes W W Stowe and D R Holcomb, Republicans, were elected clerks The Senate organized by electing Republican officers

WASHINGTON, May 3 —The Bidders for the California mail service were the Pacific Mail Company Mr Vanderbilt and W C Barney Barney's bids were for the Nicaragua route, the others for the Panama

The agent of a large German association had an interview yesterday with Senor Mata in relation to a colony contract which they desire to obtain from Mexico The association possess large means and are willing to compound military obligations to the Mexican government

The Treasury receipts for the quarter ending April 1 were nearly $22,500 000, including upward of $13 000 000 from customs and between $8 000 000 and $9 000 000 from the loan of 1858

The expenditures for the same period were nearly $18 000 000, including $3 000 000 for redemption of treasury notes issued under date of December, 1857.

A YANKEE WOMAN'S PERSEVERANCE —The Cleveland Herald says that Delia Webster, the Yankee school marm who has been driven out of Kentucky two or three times, and imprisoned once and robbed of her property twice because suspected of about as heinous a crime as a Yankee arrived in Madison Indiana, with thirty families from Massachusetts, and intends to start a manufactory on her farm in Milton, forthwith Whether she will be allowed to stay there remains to be seen

Three of the crew of the New York ship Mastiff at Hong Kong, has been arrested for stealing $70 000 in silver coins. They murdered Captain a boy thought and special officer Smith a dead body arose from the bottom of the river which was the means of their detection.

PIANO FORTES!

THE subscriber would respectfully inform the inhabitants of Bangor and vicinity that he has just arrived from NEW YORK, and has taken

Store No 19 Main Street,

Where he has on exhibition, and for sale for a few days only, a few of the

ELEGANT

Rosewood Piano Fortes!

Manufactured by the celebrated makers

Messrs. Cummings & Canfield,

OF NEW YORK CITY

These Pianos are full Seven Octave elegantly finished in Rosewood, with beautiful Pearl Keys which are unlike the Ivory as they never change his color and at the same time are far more durable The first octave and the Bass of these Pianos is composed of a set of wrapped steel wires, running parallel with the side of the Piano the whole cross the Sostenuto immediately in the centre of the sounding board. Thus with the increased length of both Bass and Treble strings, a length of scale equal to the grand or long Piano is afforded and a fullness fullness and sound near of tone hitherto unknown on any square Piano is produced

There is still another novelty in the arrangement of the length of sounding equal to the Grand Piano and upon a principle that acts as a duplicate to the diagonal bar of the other stringed a very desirable object is effected in securing the frame and bracing the whole action Although these arrangements sustain such a complete relation to each other that it necessarily insures the greatest amount of musical harmony practicable to a piano yet the beauty and rich quality of the tone is not perceptible elasticity touch

Messrs CUMMINGS & CANFIELD received the

First Premium

At the Great World's Fair New York, for producing the finest toned Piano over all other makers and have received the first premium at all the principal fairs throughout the country

These Pianos will be sold Fifty Dollars less than our fixed prices in New York and we will be fully warranted in the long run

During our stay in Bangor we sold of the above instruments to Judge Farnsworth Hon J W Porter J W Priest Esq Rhiel A Barrows Mr L L Moore Colburn Esq Mrs A A Bluthes G M Partridge J G Woodbury Esq and James Shaw

STEAMERS.

Portland and Boston Line.

The Splendid new sea going Steamers *Forest City, Freeman,* and *Montreal,* will, until further notice, run as follows:

Leave Atlantic Wharf, Portland, every *Monday, Tuesday, Wednesday, Thursday* and *Friday,* at 5 o'clock P. M., and Central Wharf, Boston, every *Monday, Tuesday, Wednesday, Thursday* and *Friday,* at 5 o'clock P. M.

Fare, in cabin..... $1.25
on deck..... 1.00

Freight taken as usual.

N. B.—Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and Families, and travelers are reminded that by taking this line, much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours in the night will be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given and paid for at the rate of one passenger for every $500 additional value.

L. BILLINGS, Agent.

Feb 1, 1859.

WINTER ARRANGEMENT.

NEW YORK & PORTLAND.

The Splendid and Fast Steamer

Chesapeake,

Capt. SIDNEY CROWELL, will run regularly between *New York* and *Portland,* as follows:

Leaves Brown's Wharf, Portland, every SATURDAY, at 4 P. M., and returning, leaves New York, Pier 12 N. R., every TUESDAY, at the same hour.

This vessel has just been fitted up with fine accommodations for Passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine.

PASSAGE $6.00—including Fare and State Rooms.

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John. Also, connects with steamers for Baltimore. Goods taken through with despatch, at the cheapest rates.

Shippers are requested to send their freight to the Boat before 3 o'clk P. M. on the day that she leaves Portland.

For freight or passage apply to

EMERY & FOX, Brown's Wharf, Portland
H. G. CROMWELL, Pier 12 N. River, New York.

Portland, Dec 11, 1858.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via Panama R. R.

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on travelers, those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line as below.

By order of the Post-master General, the United States Mail Steamers will hereafter be dispatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line having entire Through Tickets, guaranteeing no detention on the Isthmus!

Transit made in *four hours entirely by daylight,* thus avoiding the great exposure by night, to open boats to fever and ague, and 250 miles of dangerous lake and river navigation, over rocks and cataracts.

Arrangements have now been completed so that the regular U. S. P. S. Mail Steamers will leave Panama for San Francisco immediately on arrival of the Atlantic Mail and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, with the greatest comfort and safety to health.

Care is must be taken that by one of the Company's Agents, free tickets be exchanged by the Agent at Panama, and tickets should be obtained of the *only authorized* Agencies the U. S. and Pacific Mail Steamship Companies, in this city:

C. L. BARTLETT, Agent, No. 10, Broad street, Boston.

August 1, 1858. 1y

American & Foreign Patents

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, under the Act of 1837,

76 State St., opposite Kilby St.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to procure Patents in the United States, also, in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made in to American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal opinions rendered in all matters touching the law of Patents. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through its clients have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The 12 thousand inventors who have proved that now is a MORE SUCCESSFUL AT THE PATENT OFFICE than the average number, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add, that he has a abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of law and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay therein are here spared inventors.

TESTIMONIALS.

Richard M. Eddy is one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure to them a patent easily and favorably on the Patent Office. EDMUND BURKE,

Late Commissioner of Patents.

Mr. R. H. Eddy has made for me TWO PATENTS which he obtained in a short time, and much more rapidly than I could have done, and I have no hesitation in recommending him to my friends who may want a patent. I shall always employ him when I want a patent. ALBERT G. ELLIOTT, Cincinnati, Ohio, Feb. 9, 1858.

Mr. Eddy has made for me four patents, three of which he obtained in a short time, and the fourth after the rejection of my own application by the Commissioner of Patents. I think the fee he charged me for his services was much less than I should have paid any other person for the same service, and I shall employ him in future when I want a patent. ALANSON MILLER, Cincinnati, Ohio, Feb. 9, 1858.

Mr. R. H. Eddy has made for me SIXTEEN APPLICATIONS FOR PATENTS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents. R. H. EDDY,

Boston, Sept. 1, 1858. 3tawtw1y

PURELY VEGETABLE!

THE

Great English Alterative

AND....

Humor Eradicator,

DISCOVERED by an eminent English Surgeon, after years of study.

This Medicine is unquestionably the *best Alterative* ever used; purifying the Blood, giving new and healthy impulse to the functions of the system, and rejuvenating the infirm. It eradicates, at once, all kinds of Humors, Cutaneous Eruptions, Cancerous affections, Scaly Eruptions, Leprosy, and all kindred diseases, which have their origin in impurities of the blood.

For Scrofula it may properly be regarded as a Specific. No other preparation known to the world so promptly and effectually cures this fearful malady. "Cleanse the fountain and the stream will be pure." Purify the blood and the system will be healthy. Take this Alterative and the blood will be purified. To all who are suffering from Chronic Rheumatism, Liver Complaint, Jaundice, Piles, Humor in the Eyes, Scrofulous Blotches in the Face, and General Debility, this remedy is offered with the almost confidence that it will afford speedy relief.

YOU HAD BETTER TRY

MY MOTHER'S SALVE!

THIS CELEBRATED PREPARATION has obtained an enviable and world-wide reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many, and offers to the sick and unfortunate, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"MY MOTHER'S SALVE"

Is a PERFECT CHEMICAL COMPOUND, prepared from ROOTS, HERBS AND GUMS, gathered from the forest, and possesses *Healing, Soothing and Pain-Relieving Virtues* never before combined in a Salve or Ointment.

"MY MOTHER'S SALVE"

Is SAFE AND EFFECTUAL, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a PERMANENT CURE.

"MY MOTHER'S SALVE"

In a BURN or SCALD takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"MY MOTHER'S SALVE"

Is worthy of confidence, and thousands having used it and recommended it to their friends is a testimonial worth *Thousands of Dollars.*

"MY MOTHER'S SALVE"

are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in prescriptions, received at times as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with the Salve. In case of Cough, Tightness of the Lungs, Sore Throat and such like ails, rub as in case of Rheumatism. In any case of pain, a good result follows the use of this Salve. Prepared by A. M. BECK.

BURRILL & HUNTING, Sole Proprietors, No. 6 Tremont Street, Boston.

PERRY DAVIS'

Vegetable Pain Killer!

REV. T. ALLEN, writing from Tavoy, Burmah, says—"Within the last four years I have used and disposed of an entire hundred bottles, but know out. Please send me a fresh supply (through the Mission Rooms) as soon as you can, say two hundred bottles. I dare not be without it myself, and there are endless calls for it, both by Karens and Burmans. I always take it with me into the jungles, and have frequent occasions to use it both on myself and others. One night, while sleeping in an open Zayat, I was awoke by a most excruciating pain in my foot. On examination I found I had been bitten by a Centipede. I immediately applied the Pain Killer, and found instant relief. In less than an hour I was again asleep."

Rev. H. L. Van Meter, of Bassein, India, writes—"Here let me assure you that we prize your Pain Killer very highly. For the first two or three years of our residence in India we were ignorant of its valuable properties, and did not use it, but now would hardly feel safe without it for a single day. Only a few nights since Mrs. Van Meter was stung by a scorpion, and intense pain was instantaneously throughout the arm, and soon a numbness of the fingers followed. By the continued application of the Pain Killer for an hour or more and at intervals during the night, the alarming symptoms were subdued, and in the morning only a slight soreness was left in the finger. I gave it in a wineglass of Silver and Ague, according to directions, and it acted like alchemy, breaking it up at once. The Karens have great faith in it."

Mr. W. L. Carpenter writes from Calcutta—"Perry Davis' Vegetable Pain Killer is a very valuable medicine, and most people here that have used it entertain a high opinion of its worth."

Bombay Dec. 10, 1857.

Messrs. F. Davis & Son—Gents: We have sold the shipment of Pain Killer you sent us May 14, and hope to close that account in a few days. Herewith find a draft for £55 on the Mercantile Bank of India, London and China, to your order. Hope to receive more for sale on Equitable and Am. Union. Yours truly,

DYNSMOOR, NEWBURY & Co.

Melbourne, Australia, May 14, 1858.

Messrs. F. Davis & Son—Gents: The Pain Killer, with 24 boxes, and the remainder of Mother's, with the boxes of Pain Reducing Pills, have arrived safe and the latter kind is selling to good advantage. Neither of the lots are damaged at all, so you may with safety send them in future for our market. We are divided among four different houses, two of which have sold much more than the rest, so if you will do us a favor, let the next consignment which you make us be in your Pain Killer, and send no Reducing Pills. Yours, &c.,

NEWELL, HOPKINS & STRATTON.

Sold, wholesale and retail, by W. L. Alden & Co., Union Block, and N. S. Harlow, No. 4 Smith's block, Bangor.

MORSE'S MAGNETIC PLASTER

The GREAT STRENGTHENER and PAIN DESTROYER.

THE best and cheapest Household Remedy in the World. Simple and pleasant in application, certain and effectual in its effects. A beautiful, scientific, external Curative, applicable for the relief of Pain at any time in any place, in any part of the human system, and under all circumstances. If you have a Pain any where, the Plaster is there, the Plaster will stay there until the Pain has vanished. The Plaster magnetizes the Pain away, and

Pain cannot exist where this Plaster is applied.

Rheumatism, Lameness, Stiffness, Weakness, Debility, Nervousness, Neuralgia, Dyspepsia, Coughs and Colds, Pains and Aches of every kind, down even to Corns, are IMMEDIATELY RELIEVED, and, with a little patience, PERMANENTLY CURED, by the magical influence of the MAGNETIC PLASTER. It is the simplest, surest, safest, pleasantest, and cheapest remedy in existence. Its application is universal—equally to the strongman, the delicate woman and the feeble infant. To each and all it will give a Balm and a Blessing! Its use is agreeable, and without annoyance or trouble. Relief is within reach of all—rich or poor; all may buy it, and all should, have to who are sick and suffering in any way.

FARMERS should always be supplied with this invaluable PLASTER. It will be the Good Physician in any household, ready, at all times and at instant notice.

Put up in air-tight tin boxes. Easy to send, make a nice, tolerable plaster, and any child can spread them. Price 25 cents a box, with full and plain directions.

D. C. MOREHEAD, M. D.,
Inventor and Proprietor,
10 Walker-st., New York.

MOREHEAD'S MAGNETIC PLASTER is sold by all Druggists in every City, Town and Village in the United States.

verulent and disintegrating influences of the winter's frost.

The quantity of lime required in this process of amelioration will be best determined by a chemical examination of the subsoil in connection with that of the surface earth. If of a calcareous nature, very little lime will be required, and perhaps none; but if this principle (lime) be present in only small quantities, it should be supplied and caustic lime is the best article that can be used, though wood ashes, in liberal quantities, produce very salutary effects.—*N. E. Farmer.*

THE TRIUMPH OF NULLIFICATION.—The Columbia South Carolinian, one of the conservative papers of the South, rejoices over the verdict in the Echo case, and boasts, in the following style, over the triumph of nullification:

"From the time when South Carolina took her position against an oppressive and unjust revenue system, and stood forth a solitary champion of nullification the efforts of State-rights men to bridle the assumption of the government and to wrest from it the power it claimed over banks, over internal improvements, and over domestic affairs, have been unceasing. Who, in looking over the past history of the federal government, can deny that they have been successful, and that the government has been beaten back, inch by inch, until now it is *almost a naked skeleton, a mere outline of what it once claimed to be.* Powerful still as it was intended to be in the foreign affairs, its power in domestic affairs is gone, and *states then in any State in the Union can contemptuously set aside, with more impunity than they could a town ordinance, the most high sounding enactment of the federal government.*"

A Charleston correspondent of the Providence Post, writing about the same verdict, says:

"I have been present at a great many trials for capital offences, but never fully realized, as I have in this case, the unalienable right of a trial by jury.

The prisoners, and all others engaged in the slave trade, doubtless hold to the same view. This winter naively adds:

"I could not keep out of my mind the trial of Gov. Dorr at Newport as I witnessed the drawing of the jury in this case. Had the jury which tried him (Gov. D.) been drawn as they were here, he never would have been convicted of treason.

Upon which the Providence Journal remarks that if the object of the trial by jury is to acquit men of offences that everybody knows they have committed, there can be no doubt that the Charleston plan is the perfection of justice.

The differences in the assertions made for the enforcement of the law in the North and in South, affords melancholy evidence of the probability of the administration. In the Oberlin case, when some negroes were rescued from men who held them by very doubtful legal authority, the whole power of the government has been brought to bear upon a conviction. A hundred deputy marshals have been sworn in, a jury consisting entirely of one party was empannelled in a district where the other party was largely in the majority; a United States steamer has been sent for, and every effort has been made, not only to overawe the public opinion in favor of the prisoners, but to ensure a conviction by partisan means.—How different in the Echo case! How different in the case of the Wanderer, where the laws have not only been openly *defied*, but the profits of that defiance, with all the evidences of it, are seen daily in the streets.

No republican government can long exist without respect for the law. It is one of the worst consequences of the surrender which the Democratic party has made to the interests of slavery, that it has broken down the respect for laws, and has inaugurated the triumph of nullification.

Henry A. Wise has wisely abandoned his hug-bear of a dissolution of the Union as the result of the election of a Republican President—which so haunted him in 1856—but is more oppressed now with the federal conduct of Mr. Buchanan. There is always a crisis with Mr. Wise, and his last takes this shape:

The question is not, Will the Union be dissolved? This is a settled question. But the question is, Is this old Virginia democratic faith to be abandoned, and are we to push on with the President into a full scheme of federal policy which in its whole outline and filling up exceeds any federal act in all the points which a Hamilton or Adams, or any latitudinarian ever dared to project or propose.

The Washington Constitution, the President's organ, in a carefully written article, denies emphatically that popular sovereignty is squatter sovereignty, or anywise akin to it, and asserts that neither the Legislature of a Territory nor its people can in any manner prohibit, or preclude the existence of slavery in said Territory. Thus the new Presidential programme opens.

Sch S. L. Hills, from Savannah 23th ult, for Kennebunk, Me., abandoned at sea, dismasted and full of water, was an A2 vessel of 199 tons, built at Rockland, Me., in 1853, where she is owned.

The Knoxville Whig says that Gen. Sam Houston will again be a candidate for Governor of Texas at the next session.

LOCAL AND MAINE NEWS.

OLD AND NEW STYLE TYPE FOR CARD PRINTING!

We have received several New Specimens of Card Type, which we will exhibit to those desirous of having Cards Printed in the most Fashionable and Latest Style.

Supreme Judicial Court.—April Term.

APPLETON, J., presiding.

May 4.

William P. Osmond vs Joseph P. Hall. The verdict was for dft. The jury found that the goods were sold to the wife of dft.—that he acted as her agent, and the claim was settled.

John B. Hyde et al vs Jeremiah Pecno et al. On account for watches. The question was whether the dfts. were authorized to return a portion of the watches if they could not sel them—they having returned watches of the value of $89. The jury did not agree—8 for plfs, 4 for dfts.

Godfrey & Shaw. Wakefield. May 5.

Elisha D. Bucknan vs John Gordan. Replevin for horses. After the testimony was partly out, an arrangement was made by the parties, and the suit on was entered Neither Party.

Stewart. ON TRIAL. Godfrey & Shaw.

Isaiah W. Furber et al vs Gowing Harthorn. On account annexed. Defense, that the goods were not furnished on the credit of the dft. Ingersoll and Humphrey. Stewart.

☞ The grocery and provision store of Messrs. Boden & Webster, corner of Somerset Street, was entered by rogues on Wednesday night, and a couple of bacon hams, a lot of coppers, and a pound or two of candy taken. The store was entered by cutting out a pane of glass.

SALMON.—We noticed yesterday, at Wm. Low's market on Kenduskeag Bridge, a tempting display of fine salmon, obtained from Veazie and Bucksport. Low keeps up with the times in his department.

BLACKBIRD ON SNOW.—Thomas Bickford, in Norombega Market, is moving from his Stall any quantity of shad and fresh fish of all kinds, oysters, &c. Call in and look at his stock of fish.

RESISTANCE AND ARREST.—Louis Guidi, the Italian peddler who played possum out of Ellsworth jail the other night, was arrested in Bluehill by officer Stevens on Friday. He made a stand against a frolic with two knives, but was overpowered and taken into custody. Guidi probably came out of the woods for sustenance.

FOR CALIFORNIA.—Capt. Collins, of this city, leaves New York today by the steamer Moses Taylor, for San Francisco, to take command of the ship Golden Rocket, in place of Capt Pendleton, who will take the barque Sarah Park. James Dunning, Esq., also leaves on the same steamer for San Francisco, to look after the business of the Golden Rocket.—*Times.*

Augusta, A Sanderson; Hallowell, C Fuller; Sidney, T Whittier; Readfield, to be supplied; Kendall's Mills, U Eldredge; Fairfield, W B Bartlett; Skowhegan, J Colby; Solon, S Rankin; Madison and Anson, J Lord; New Portland, to be supplied; Strong, J Mitchell; Phillips, S W Pierce; Industry, P Lisby; New Sharon, J Alexander; Mercer, to be supplied; Mount Vernon, dd Farmington, do; Farmington Brick Meeting House, J W Hathaway; Wilton and Temple, Farbank; Fayette, W H Foster; Winthrop, C O Mason; Wayne, C A King; Kent's Hill, A J Church; North Wayne, to be supplied.

IMPORTS OF MOLASSES AND SUGAR.—The imports of molasses and sugar into this port from January 1 to April 30 1859, were as follows:

	Hds.	Tierces.	Bbls.	Boxes.
Molasses	23,904	2,798	1,602	
In 1858	21,666	2,684	1,561	
Increase	2,238	114	41	
	Hhds.	Tierces.	Bbls.	Boxes.
Sugars	3,920	165	48	2,145
In 1858	1,202	42	—	2,191
Increase	2,718	123	48	

As compared with the imports for the same period last year, it shows an increase of imports of 5238 hhds, 774 tierces, and 41 bbls. of molasses and 2714 hhds., 123 tierces and 48 bbls of sugar. None of the above imports were sent to the Boston market.—*Portland Argus.*

SUICIDE.—Benj Davis of Warren, committed suicide April 30th, by hanging himself in the barn. He had sold his farm a short time before, and was unable to find a location to suit him. He had seemed low spirited for some weeks. He left a wife and ten children.

In the U. S. Circuit Court yesterday, on motion of District Attorney Bagley, Wm. Pitman, Esq., was admitted to practice in the U. S. Courts.—*Portland Argus.*

THE ROAD MEETING AT LINCOLN.—The citizens of this town met last evening in goodly numbers, at the Academy and manifested a lively interest in the Railroad enterprise. The meeting was called to order by J. Burnham Esq., and organized by the choice of Timothy Fuller, Chairman, and W. R. Ayer, Secretary.

Remarks were made by several gentlemen. The following resolutions were offered by Mr. Burnham and unanimously adopted:

Whereas, The up-river Railroad is in our view not a local, but emphatically a State enterprise, called for under the circumstances by the exigencies and wants of the State and of the whole State;

Therefore Resolved, That as citizens of this State deeply interested in its growth and prosperity, this enterprise merits and shall receive our hearty and united support.

Resolved, That a committee from the citizens of the town be raised, whose duty it shall be to promote by all honorable means the building of said road.

A committee of the most energetic business men of the town were selected, in conformity to the last resolution. The meeting then adjourned to meet at the polls on the second Monday of June next.

Lincoln, May 3, 1859.

MASONIC.—At the annual meeting of the Grand Commandery of the Knights Templar for the State of Maine, Tuesday evening, May 3d, the following officers were elected:

Freeman Bradford, Portland, Grand Commander.

John Williams, Bangor, Dep Grand Commander.

Abner B. Thompson, Brunswick, G. G.

T. J. Murray, Saco, G. C. G.

OUR DOOR CONCERT.—The Bangor Cornet Band has evening gave the first of their proposed on door concerts, from the balcony of the Hatch House. A large crowd were gratified by the performances.

PERSONAL.—Rev. Roger S. Howard of Portland, is now in the city at the Penobscot Exchange. He will preach at Oldtown on Sunday.

FIRE AT KENDALL'S MILLS.—The fire mentioned in our last as having occurred at Kendall's Mills, proves to be the house and barn of Mr. Charles Wyman. The house was not entirely destroyed, but badly damaged. Loss about $1000; insured for $500.

Yesterday morning, a new house, just completed, belonging to Joseph McHugh, was destroyed by fire at the same place. Loss not great, but heavy to the owner.

We are indebted to Conductor Pitman for the above.

NOMINATION.—The following nominations were made by Governor Morrill on Wednesday May 4th:

State Prison Commissioners—Richard Tinker of Ellsworth, and Horace Porter of Kennebunk.

A little son of Edward T. Little Esq., of Auburn, aged about two years, fell into a pond in the garden on Saturday last, and it was with the greatest difficulty that life was restored to him. He was missed by his mother, who went in search of him. An article worn by him was noticed on the water, and his mother sprang into the water and saved him. A moment more and he would have been extinct.

Ship Thirty One States, of Camden, at New York from Liverpool, lost foretopmast, lore and maintopgallant mast, hatches split, &c.

DEATH BY DROWNING.—A young man belonging to the English schooner Sultan, Capt. Monroe, lying at Steamboat wharf, was missed on Monday evening last. Search was made for him without success until Tuesday morning, when his body was discovered lying upon the bottom alongside the schooner. Upon getting the body out, it was evident that he had fallen overboard, and had struck the boat alongside in his descent, as his face was bruised.—*Belfast Journal.*

GEORGE H. Freeman, M. D., has been appointed Post Master at Presque Isle, vice Zebulon Rowe, Esq., resigned.

Two young men left this city for the South yesterday, en route for Aroostook via Portland and Bangor. They belong in Edgecomb, and go determined to hew out for themselves homes in that portion of the State.—*Bath Times.*

WHERE WILL THE NATIONAL CONVENTION BE HELD?—The Republican Executive Committee appointed by the Philadelphia Convention in 1856 were charged with the duty of determining the time and place of holding the next National Convention of the Party. We are glad to see that the suggestion of the city of Wheeling as the place, is received with general favor, and we sincerely wish that the Committee may incline a partial ear to the memorial which has been addressed to them by the Virginia Republicans. The following Resolves, passed by a public meeting recently held in Wheeling, very succinctly state the reasons why that locality is a desirable one:—*Portland Advertiser.*

Resolved, That we would most cordially and earnestly invite attention to the many advantages which Wheeling possesses for holding said Convention; especially to our position as a central point, easily accessible from all parts of the country, both by water and rail; to our prominent position, as the second city in the leading Southern State; to the fact that there already exists among us and around us a widespread and spreading Republican sentiment, as if that the opposition to us is of such a friendly character as to have afforded many and leading personal assurances that a Republican Convention would be cordially welcomed to our midst, and that, in all respects made comfortable and agreeable.

Resolved, That we firmly believe it of the first importance to the Republican party that their next National Convention should be held in a Southern State, in order to relieve our cause from its groundless, yet plausible charge of sectionalism, which has, in times past, been effectually urged against it; and that, in our opinion, no other measure would be half so productive of a rapid growth of Republican principles in the Southern States as holding the Convention upon Southern soil.

SPECIAL NOTICES.

☞ Masonic Notice.

ANDREWS LODGE, No. 83, meets THIS (FRIDAY) EVENING, at 7 o'clock.—A full and punctual attendance of the brethren is requested. Per order, may11

ARRIVAL OF THE

NIAGARA

AT HALIFAX.

HALIFAX, May 5.

The Niagara left Liverpool on the afternoon of the 23d.

No news of Alps, Kangaroo, or Nova Scotia.

Sugar dull; Molasses duff; Flour 6d higher.

The War Crisis.

The London Times of the 21st issued a special edition containing the following important telegraph dispatch:

Turin, 21st.—Gyulai, the Austrian commander in Lombardy, has been ordered to present an ultimatum for disarmament, and the sending away of volunteers. If refused, war is to be declared in three days.

Two more divisions of Austrian army, 80,000 men, have been ordered to the Ticino.

English proposal for a Congress upon same condition as that at Laybach has been refused.

Times adds the following: "We have reason to believe, the same intelligence has been received by government. The Cabinet Council was at once summoned."

The English government is said to have promptly telegraphed to Vienna strongest protest against the above menace.

The Paris Moniteur of Friday says: "Austria has not given her adhesion to propositions made by England, and accepted by France, Russia and Prussia; besides which it appears the cabinet of Vienna have received upon addressing a direct communication to the cabinet at Turin in order to obtain the disarmament of Piedmont. In consequence of these facts, the Emperor has ordered the concentration of several divisions of the army on the frontiers of Piedmont."

The Paris papers General Manteufel informed the French government by telegraph that the Austrian army had made significant movement in strategical line of Tiesno and that he feared being attacked any moment.

Napoleon held council of ministers and was attended by princes Jerome and Napoleon as princes of the blood.

The King of Sardinia also held a council of ministers on Thursday 21st.

The Constitutional announces that part of the army of Paris had received orders to hold itself in readiness to march.

Latest.

London, Saturday. After the Cabinet meeting on Thursday a dispatch was sent to the Austrian government expressing strong disapproval of the British government of the peremptory course adopted by Austria.

The Times says the Imperial manifesto which is to accompany the Declaration of war against Sardinia is newly prepared.

The English journals generally think the last chance of peace has almost vanished, and speculate on opening movements of campaign.

The London Herald gives a semi official form to some specific and exclusive information relating to the movements of the French army and says orders have been given for the embarkation at Toulon of 30,000 men. These troops are not, however, to sail till further orders. The divisions at Lyons, Grenoble, Bassanon &c, also received orders to be ready to march at a minutes notice.

The British Ambassador at Turin has returned to his post.

Britain.

Recruiting was going actively forward throughout England.

The Herald's Paris correspondent says preparations for war pushed forward with feverish rapidity, notwithstanding the professions of peace to Congress to disarm.

The Times Paris correspondent says it is certain there is no cessation of armament.—Masses of troops continue to concentrate at points.

An army is to be collected on the Rhine mobile and numerous cavalry regiments have already commenced marching thither.

The French soldiers on renewable furloughs are reported to have been called in.

Gen Randon is spoken of as Major General of the army on the Piedmont frontiers.

Prussia.

It is stated that the mission to Berlin of Archduke Albrecht, of Austria, was most completely successful, he having signed a military convention with Prussia, by which the latter agrees to send to the Rhine an army of 280,000 men, under personal command of the Prince Regent. If negotiations for peace fail, this force will be further increased by the contingent of Bavaria, 60,000 strong, and the 8th and 1st army corps of 60,000, whilst other contingents will be held ready to march.

The newspapers in Prussia are said to have been requested not to publish anything connected with the preparations for war or the movements of the troops.

Austria, &c.

The Austrian Southern Railway was retained for the exclusive service of the government; and troops and ammunition were being constantly conveyed over it.

The "danger of war was considered so imminent at Frankfort, that the Federal Diet, which had been holding secret sittings, resolved not to adjourn for Easter holidays.

It is reported that the Austrian bad interceded the Duchies of Tuscany, Parma and Modena.

Sardinia.

The Turin correspondent of the Times says: Cavour says fully war is not desired, and such event would possibly be the signal for insurrections in various parts of Italy, and perhaps serious disturbances in Piedmont, where twenty thousand Italian volunteers confidently await hostilities.

The Sardinian steamers on the Lago Maggiore, with a single exception, had ceased running and had been placed at the disposal of the government.

Italy.

The King of Naples still survives.

Naples admits corn into Sicily for two months from March 30th.

The government of Rome is said to have sent round a private circular to the Bishops, urging them to collect men for two legions of pontifical troops. The attempt was unsuccessful, notwithstanding a large bounty was offered.

Turkey

Apprehensions of war had aroused fears of insurrection in Turkey.

Advice from Bessarabia confirm the report of Russian armaments there, and from Georgia there are reports of the intended assembling of 100,000 Russians in that province.

India.

The Bombay mail of March 30th, reached England.

Little add tional to telegraphic already received.

Financial embarrassments and new customs tariff monopolized attention. On tobacco a duty of 20 per cent had been imposed, where none existed before. Duty on grain, pulse and indigo had been doubled.

New York Markets.

NEW YORK, May 5.

THREAD DETECTOR.—In Warren, last week, discovery was made of the perpetrators of a series of larcenies which have been carried on in this village for the past two years. The culprits are Samuel Vannah and Oliver C. Kirk, both married and resident in Warren. Vannah is about thirty and Kirk about thirty-five years of age, and the 50 per was formerly of the Woolen Factory at that place, and implicitly trusted by his employers. About $160 worth of wool has been stolen from the Factory of Messrs. Johnson, Fuller & Co., which has been sold in Belfast by a red ar employed by the perpetrators of the theft, and goods have been taken at various times for two years past, from their stores. The conduct of Vannah was such as to excite strong suspicion, he was arrested on Tuesday of last week and confessed his guilt and confirmed that of his confederate, but the latter had meanwhile escaped. A large trunk and seed bag containing goods worth from $500 to $700, were found under Vannah's wood-pile, and some counterfeit money was also found in his possession on his premises. He was committed to jail; Kirk is still at large, and a reward of $50 has been offered for his apprehension.

CONSTITUTION IN ENGLAND.—Alluding to the dissolution of Parliament and the election which will follow it, the London correspondent of the Philadelphia North American says:

"It is calculated, that the general election will entail an expenditure of $ 6,000,000, and the London tradesmen who depend on the London season for their harvest will be half ruined. Depending upon a prolonged, as well as full season, the stocks laid in are both heavy and expensive, and at the expiration of shopkeepers are prepared to exhibit articles of luxury and magnificence to their customers, those customers are scouring over the country, practising humble bows, getting up blandsmiles, and inwardly cursing the claqueurs whose sweet voices they are essaying to win."

OLD WINES.—At a recent auction sale of the wines of a deceased Lord Justice in Scotland, eleven hundred dozen bottles of the choicest brands were disposed of at high rates. The best port of the vintage of 1821 sold for about $66 a dozen; the sherry sold for $62 a dozen. The highest price given was for Johannisberg, a 1843 sold at $42, sold as Prince Metternich's, which lot brought $54 a dozen.

The Insurance Companies in Boston who had policies upon the loss at the burning of the Mechanical Bakery, in that city, have offered an additional reward of $5000, to any person who shall, within one month, give such information as shall lead to the detection of the person or persons who wilfully destroyed the same.

Valuable Timber Land.

Assignees' Sale.

I NOW OFFER for sale the following described tract or parcel of land, viz:

29-48 undivided (being 1270 acres more or less) of township No. 3 Range 4, East of Penobscot River, and North of Lottery Lands, so called, in Washington County, State of Maine.

Said Township is favorably located for lumbering operations, and contains a large amount of valuable timber.

For farming purposes it is reported to be superior to any Township in that section of the State.

Said lands will be sold subject to a mortgage to the late Thomas Dean.

I have a plan of the Township, and will furnish a copy to any one wishing to examine the land with the view of purchasing.

For information in regard to title, terms of sale, &c., call on me, or H. WOSTRIDGE, Com. Kersch't and Auct'r,

Office—M. M. M. Ins. Office.

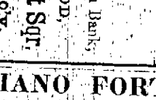
PIANO FORTES!



THE subscriber would respectfully inform the inhabitants of Bangor and vicinity, that he has just arrived from NEW YORK, and has taken

Store No. 19 Main Street,

Where he has on exhibition, and for sale, for a few days only, a few of these

ELEGANT

Rosewood Piano Fortes!

Manufactured by the celebrated makers,

Messrs. Cummings & Cantield,

OF NEW YORK CITY.

These Pianos are full Seven Octave, elegantly finished in Rosewood, with beautiful Pearl Keys, which are unlike the Ivory, as they never change their color, and at the same time are by far more durable. The first octave in the Bass of these Pianos is composed of a set of wrapped silver wires, running parallel with the side of the Piano, the whole crossing the Sopranos immediately in the centre of the sounding board. This, with the increased length of both Bass and Treble strings, affords a scale equal to the grand, we long Pianos are afforded, and a richness, fullness and roundness of tone hitherto unknown on any square Piano is produced.

There is another point in this arrangement—the length of scale being equal to the Grand Piano, and upon a principle that acts as a contra balance to the diagonal strain of the other strings, which is a desirable object is effected in strengthening the frame and holding the whole action. All the interior arrangements sustain, each a complete relation to each other that it so greatly insures the great amount of musical harmony producing a sweet, unique and rotundity of tone, and the most perceptible elasticity of touch.

Messrs. CUMMINGS & CANFIELD received the

First Premium

At the Great World's Fair in New York, for producing the finest toned Piano over all other makers, and have received the first premium at all the principal Fairs throughout the country.

These Pianos will be offered Fifty Dollars less than our fixed prices in New York, and every Piano fully warranted for three years.

During our short stay at Augusta we sold of the Present Incumbent to Judge Farnsworth, Hon. J. W. Porter, J. W. Prescott, Esq., Bishop Barrows, Mr. Lathrop, Moses Gilman, Esq., Mrs A. A. Butler, G. M. Partridge, J. O. Woodbury Esq., and James Shaw.

J. JENNYS, Agent.
